BHUMITRA CONCRETE PRODUCTS

**DESIGNED FOR
SPACES THAT MATTER**

About

Bhumitra Concrete Products manufactures premium-quality paver blocks with a strong focus on durability, finish, and customer satisfaction. We strive to transform villas, resorts, hotels, and other outdoor spaces into elegant and luxurious environments through reliable and aesthetically crafted paving solutions

Our Vision

Premium paving solutions that combine elegant aesthetics, durability, and practical performance for modern residential and commercial environments.

IDEAL APPLICATIONS

- * Villa & Residential Parking
- * Driveways & Entrance Courts
- * Garden Pathways & Walkways
- * Pool Deck Surrounds
- * Landscaped Outdoor Areas
- * Resort & Hotel Outdoor Flooring
- * Courtyard & Patio Spaces
- * Commercial & Public Outdoor Zones

Why Choose Powers?

Efficient Water Drainage

Permeable joints help reduce surface water accumulation and improve drainage performance.

Ground Water Recharge

Supports natural water percolation, helping maintain the natural water cycle.

Low Maintenance

Easy to clean and designed to retain its appearance with minimal upkeep.

Cost-Effective Repairs

Individual blocks can be replaced without disturbing the entire paved area.

Premium Colours & Textures

Available in a range of elegant shades, stone-inspired finishes, and contemporary surface textures.

OUR PRODUCTS

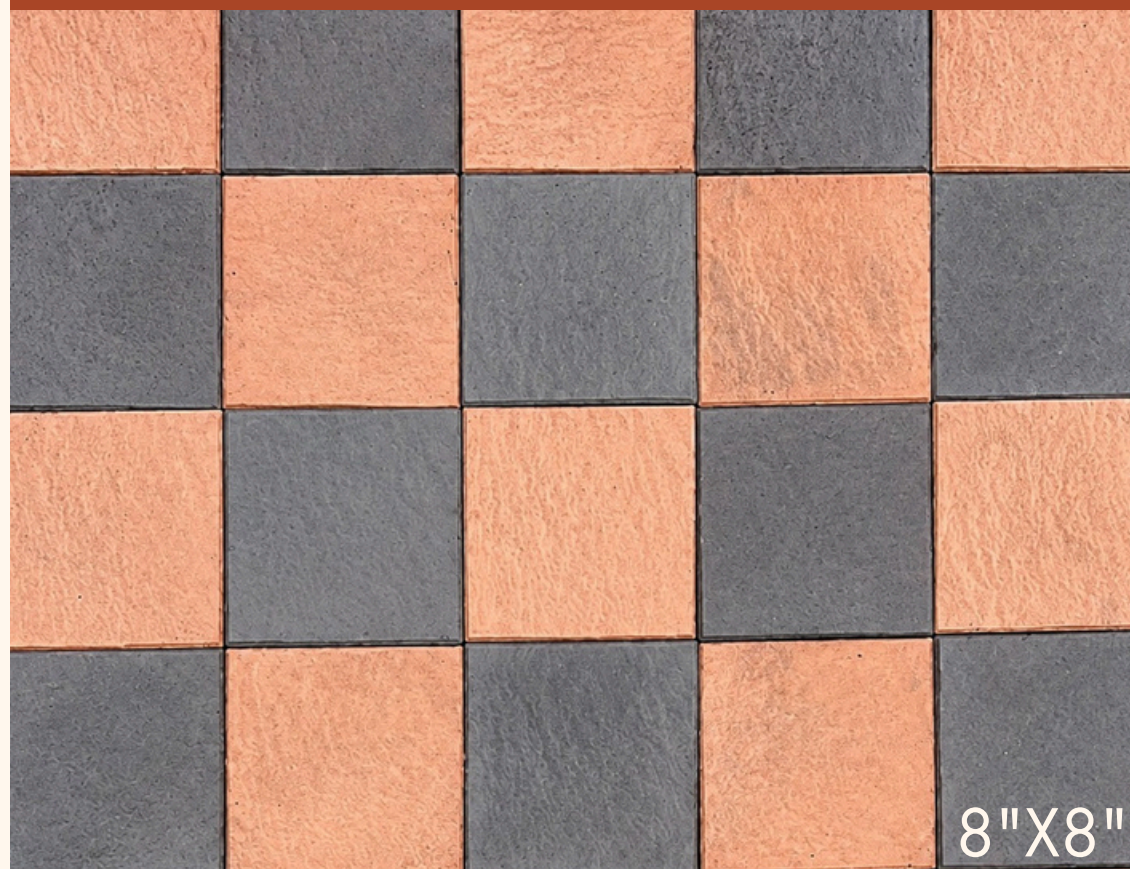

Focused on uncompromising quality and craftsmanship. High-strength concrete pavers built for lasting durability. Elegant textures and refined finishes for premium outdoor spaces. Ideal for villas, resorts, pathways, driveways, and landscape projects.

SIENNA STONE

Multiple design combinations can be achieved by mixing different sizes and complementary colour patterns, allowing unique and sophisticated paving layouts for every project

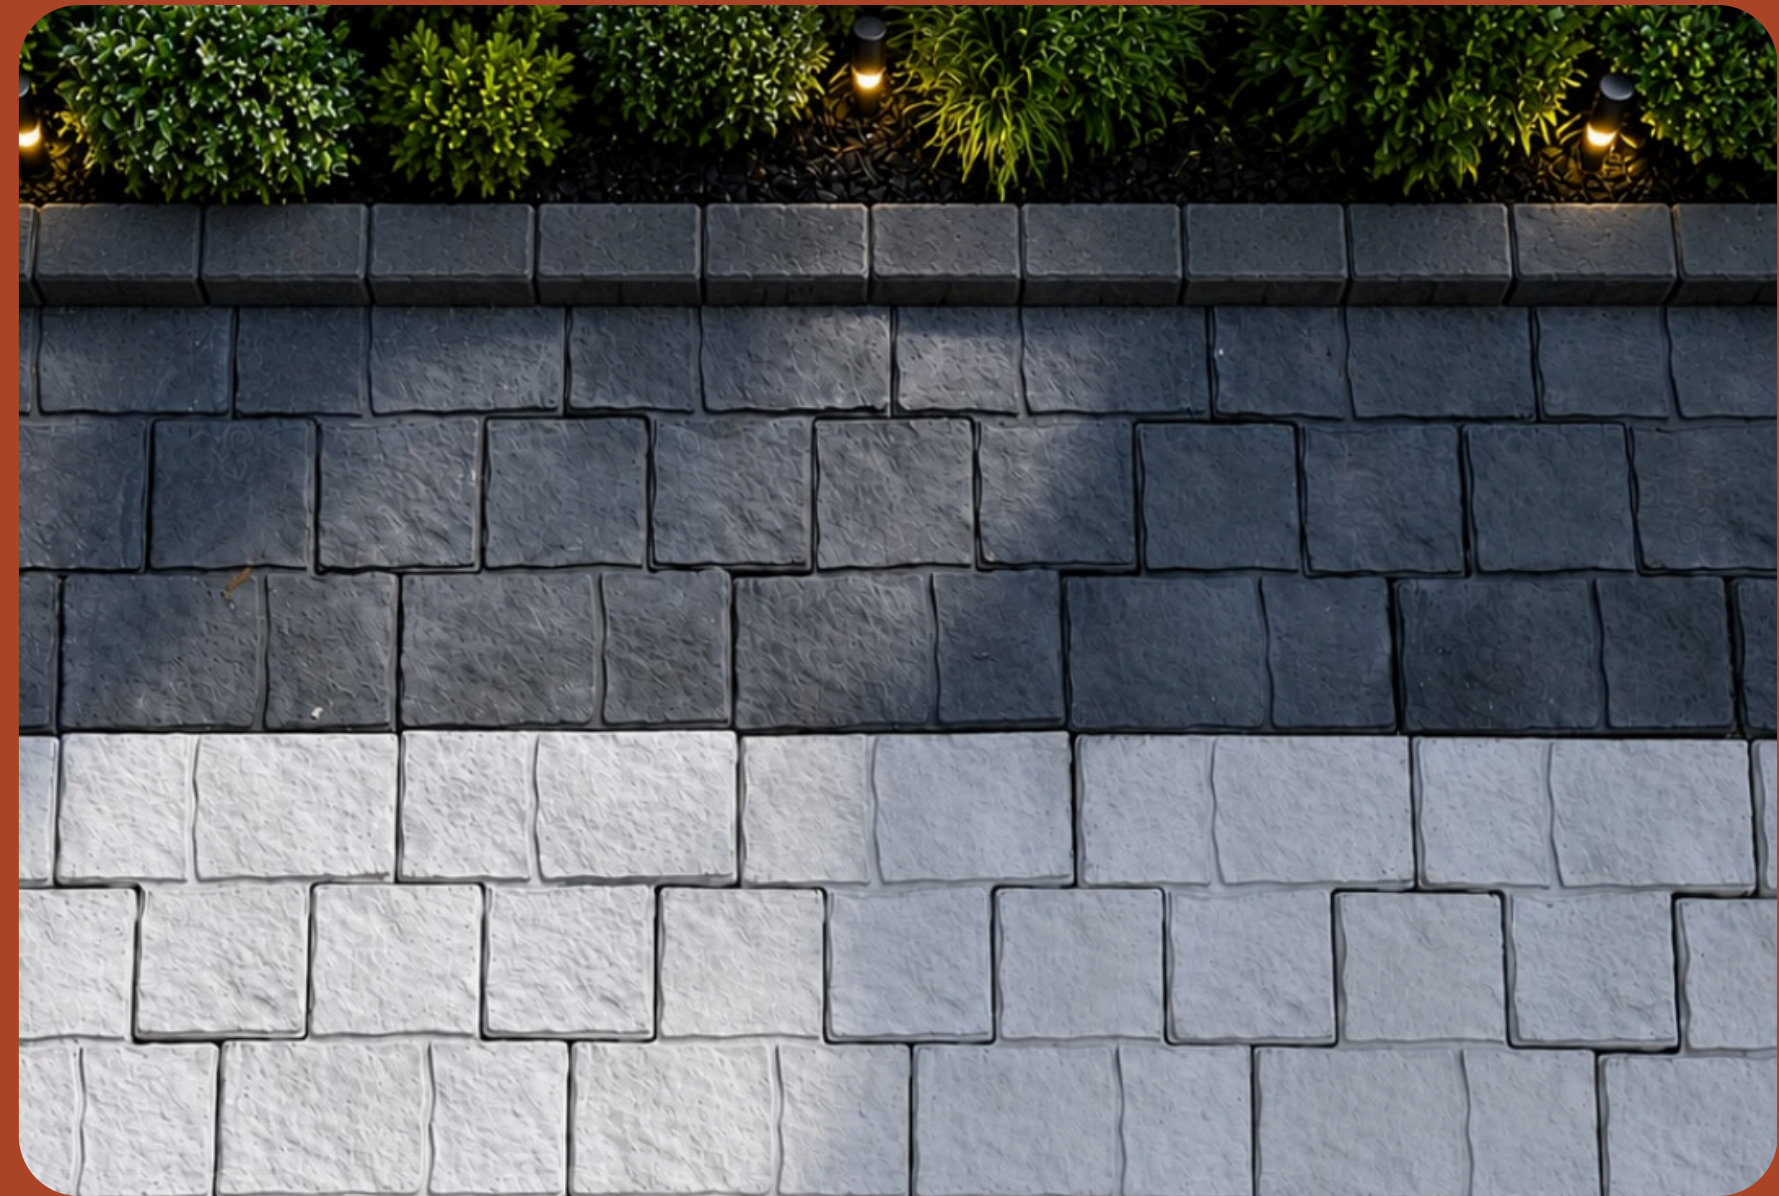

Available in a curated range of natural colour shades that can be beautifully combined to create elegant and luxurious outdoor spaces

Cobble – T

T-shaped concrete pavers featuring a natural cobble stone-like top finish that combines the strength of interlocking paving with the timeless appeal of natural stone textures.

The T-shaped profile provides excellent interlocking stability, while the cobble-textured surface enhances grip, helps prevent slipping, and creates a warm, natural aesthetic. Ideal for temples, walkways, pathways, courtyards, and landscape spaces, where both safety and traditional elegance are essential.

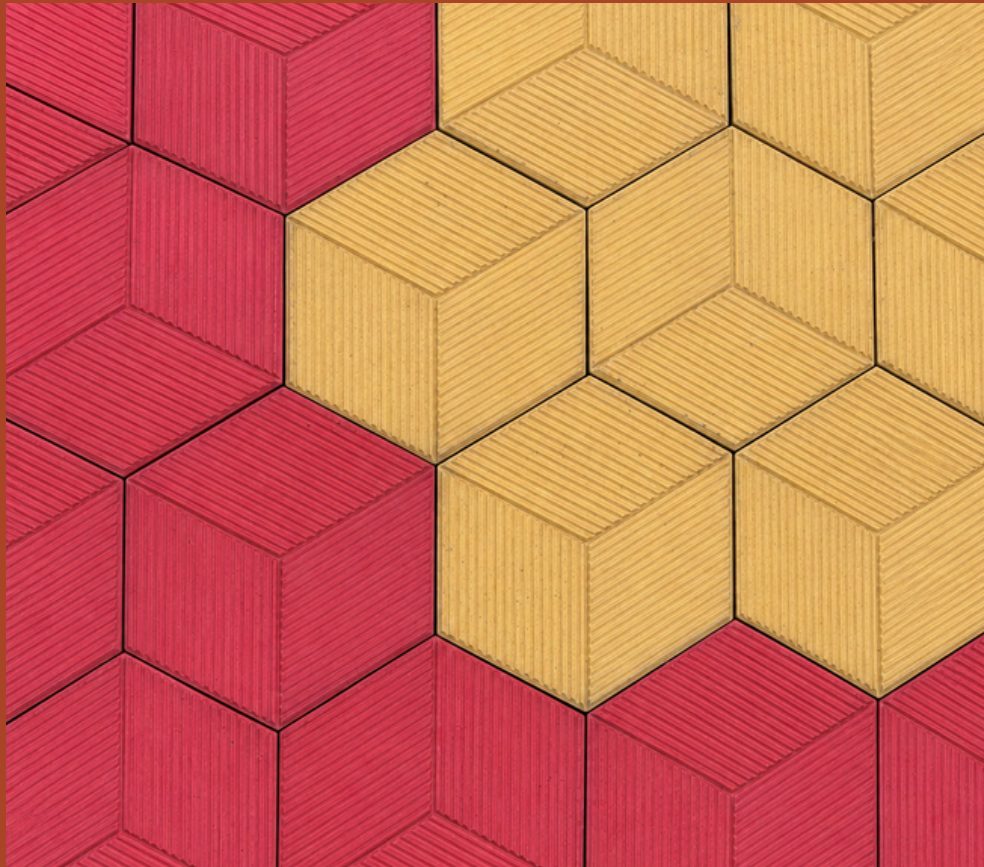

Coverage: 1 piece covers approximately 0.53 sq.ft of area.

Terra Slate

Terra Slate is a premium 12×12 inch concrete tile with a 25 mm thickness, designed to deliver both elegance and safety in outdoor environments.

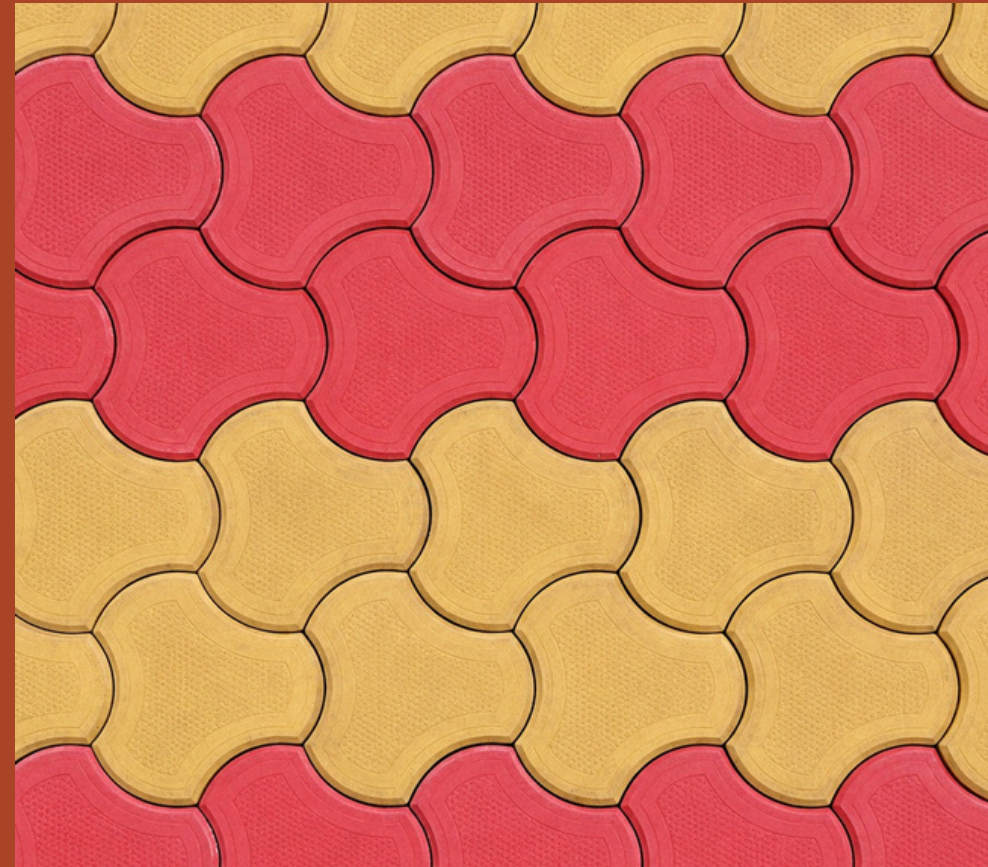

Featuring a natural stone-inspired anti-skid surface finish, it provides excellent grip under wet conditions while maintaining a sophisticated slate-like appearance. Ideal for pool decks, poolside walkways, patios, spa areas, and other outdoor leisure spaces, Terra Slate combines slip resistance, durability, and timeless natural aesthetics for refined architectural projects.

HEXAGON

Modern hexagonal pavers with a stylish geometric design that enhances the aesthetic appeal of outdoor spaces. Suitable for public spaces, commercial areas, pathways, plazas, and landscaping projects.

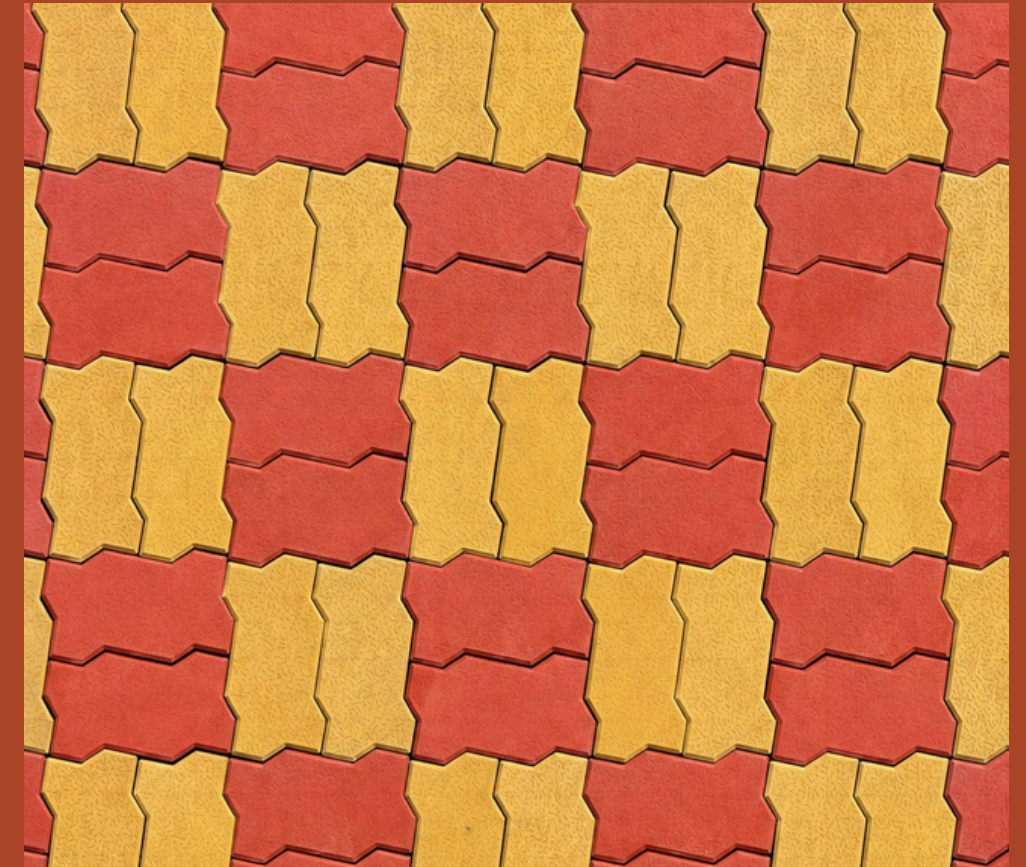

Coverage: 1 piece covers approximately 0.44 sq.ft of area.

COSMIC

An economical and practical paving solution for public spaces such as parks, lake-side walkways, gardens, pathways, and recreational areas, combining functionality with a clean and attractive outdoor appearance.

Coverage: 1 piece covers approximately 0.53 sq.ft of area.

ZIG ZAG

High-strength concrete pavers featuring a robust zig-zag interlocking shape that provides excellent load distribution. Ideal for commercial parking areas, driveways, industrial yards, and heavy-traffic outdoor spaces.

Coverage: 1 piece covers approximately 0.34 sq.ft of area.
